THE INVALID'S FRIEND.

HOLLOWAY'S PILLS.

Nervous Disorders.

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one:—Drink but little wine, beer or spirits, or far better, abstain from them altogether; do not take coffee—weak tea is preferable; get all the fresh air you can; take three or four of these Pills every night; eat plenty of solids, and avoid the use of sweets. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nerves.

Mothers and Daughters.

If there is one thing more than another for which these Pills are so famous it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous, and renewing suspended secretions. Universally adopted as the one grand remedy for female complaints, these Pills never fail, never weaken the system, and always bring about what is required.

Disorders of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water; or whether they are afflicted with stone or gravel, or with aches and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief after all other means have failed.

The Stomach out of Order.

No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, and either by intertemporance or improper diet. They reach the liver, and reduce it to a healthy action; they are wonderfully efficacious in cases of spasms—in fact they never fail in curing all disorders of liver & stomach.

Bronchitis, Diphtheria, Coughs, Colds.

No diseases are more frequent, few more dangerous, than affections of the respiratory organs. The first symptoms of disordered action may always be removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of blood, relieve any over-gorged veins, moderate the hurried breathing and enable the windpipe and lungs to perform their functions with ease and regularity. These Pills, by their purifying powers, cleanse the blood from all impurities, and thus fortify the system against consumption, asthma, and other pulmonary complaints.

Debilitated Constitutions.

In cases of debility, languor and nervousness, generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease, re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigour.

Biliousness, Loss of Appetite, Head-ache and Lowness of Spirits.

These Pills effect a truly wonderful change in debilitated constitutions as they create a healthy appetite, correct indigestion, remove excess of bile, and overcome giddiness, headache, and palpitation of the heart.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague	Female Irregularities	Retention of Urine
Asthma	Fever of all kinds	Scrofula, or King's Evil
Bilious Complaints	Fits	Sore Throat
Blotches on the skin	Gout	Stone and Gravel
Bowel Complaints	Head-ache	Secondary Symp-toms
Colic	Indigestion	Tie Douleur
Constipation of the Bowels	Inflammation	Tumours
Consumption	Jaundice	Ulcers
Debility	Liver Com-plaints	Veneral Affections
Dysentery	Lumbago	Worms of all kinds
Erysipelas	Piles	Weakness, from whatever cause, &c., &c.
	Rheumatism	

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; also by all respectable Druggists and Dealers in medicines throughout the civilized world, at the following prices:—1s. 1d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Box.

* There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

NEW WESTMINSTER, SATURDAY, MAY 6, 1865.
CHINAMEN ON PUBLIC WORKS.

Very great dissatisfaction is felt on account of the employment of Chinamen upon Government works. With respect to the employment of these people by contractors it is perhaps hardly fair to hold the Government responsible, although we are by no means sure that it would not be proper, in giving out contracts, to make it a condition that Chinese should not be employed when white labor can be had at a reasonable price. But in cases where the work is carried on directly by the Government it is quite different, and the employment of these people, when white men can be had, is, to our thinking, altogether unjustifiable. It is unreasonable to place white men in competition with a race of creatures who can, and do, subsist upon a shilling a day—who are content with a couple of pounds of rice per diem. If they are to have a preference simply because they are willing to work for half a dollar or even a dollar a day less than other men, then there is an end to white labor, and the colony may as well be turned into a Chinese settlement at once. We are not so sure that, taking the narrowest and most mercenary view of the subject, anything is saved, after all, by employing Chinese labor upon public works. Indeed we have been assured by those who have tried the experiment that, for general purposes of even unskilled labor, two white men are worth three Chinese. But we must view this question from a higher and more patriotic standpoint. We are just now engaged in building up, creating, so to speak, a British, not a Chinese colony. A most important point is to get a population and keep it. Chinese are free to come and go, but nobody expects ever to make colonists of them; they are of no use as members of society—utterly valueless for purposes of offence or defence. Their decayed bodies are not even left to enrich the soil. Their only value would appear to consist in their adaptation to work "tailings" and consume rice. And, after all, we are disposed to think that what little they contribute towards the revenue is a miserable set-off for the quantities of gold they carry away to China. If such a class of people as these are to be placed in competition with whites what right have we to expect the latter to remain in the country? The constant cry is for population. An immigration scheme, upon a small scale, has just been inaugurated by the Government, by which it is proposed to assist immigrants to come here—the laboring classes chiefly. Immigration indeed! Let the Government be honest in the matter, and tell the people in England that if they come here expecting work they must be prepared to compete with Chinese, and see how many will come. Immigration indeed! There are now in the colony hundreds of white men, English, Irish, Scotch, Canadians, &c., in want of employment, who are ready to work for moderate wages in order to earn a little money to try the mines or improve their farms, some of them in such straitened circumstances that they have to trust Providence for their next meal, and yet they are refused work, and they see Chinamen get the preference! Immigration indeed! Let us find something for those who are here by which they may be enabled to keep body and soul together, before going to England or anywhere else and inviting others out, assisting them to come here. We are not now writing at random—drawing upon our imagination, nor do we thus find fault without regret. But the case is too glaring to be passed over. There are respectable, honest colonists at our very door who are in urgent need of employment, and who have been refused it by those carrying on Government works, because Chinamen can be got for a trifle less. We do not believe the fault lies with the head of the Government, but are disposed to think it is the work of subordinates; and it is with the hope that it is only necessary to draw attention to the matter in order to have it remedied that these lines are written. Another important question, in some sense connected with the present one, viz., the policy of constructing public roads by day labor, instead of letting them out by contract, is a matter which shall receive our early attention.

NEW WESTMINSTER, SATURDAY, MAY 6, 1865.

Public Buildings.

The great necessity that exists for providing suitable accommodation for our Law Courts received a very practical illustration on Wednesday. The Court assembled at 11 o'clock. The Grand Jury was empanelled, when the Court room, being the only available Grand Jury room, was cleared of judge, bar, petit jurors, witnesses, suitors and lookers-on, in all a great and mixed multitude, and for four mortal hours they were kept waiting outside, although in the case of the Indian Teit a true bill was almost immediately returned, and had it not been for the occupation of the Court room by the Grand Jury that case might have been tried while the indictment against Copeland was under consideration. For two or three hundred people to be kept waiting four hours in the open air, under any circumstances, is sufficiently inconvenient. But suppose the case to which we allude had occurred in the winter season, instead of the summer, when it is just as liable to occur, the annoyance would have been still greater. And, as far as the present Court House is concerned, the inside is not a very desirable place in winter. With its open floor, rattling windows, and old sootily cotton lining and ceiling, in many places torn to shreds, and fluttering in the breeze like a bird of evil omen over the seat of justice—the whole thing is a disgrace to the town. It was hoped that a commencement in our public buildings would be made by the immediate expenditure of the legislative grant of £2000 in the erection of a new Court House; but we have learned with regret that, owing to the difficulty of realizing upon last year's loan, the Governor feels disposed to postpone even that trifling expenditure. While fully appreciating the difficult position in which His Excellency finds himself placed, owing to that untoward circumstance, yet we cannot help thinking that it is scarcely necessary to curtail an expenditure so very inconsiderable and yet so much needed as that which we allude. Two thousand pounds would scarcely be felt one way or the other, so far as the year's revenue is concerned; and yet the expenditure of that sum in providing more suitable accommodation for our Courts of Justice would really be a public boon. May we not, therefore, venture to hope that His Excellency will give this subject his earnest consideration, and decide to have the work proceeded with during the present season? The expenditure is very trifling, and yet the interests involved in it are very important. The very idea of passing another winter in the old rattle-trap now dignified with the name of "County Court House" is enough to give one a fit of ague.

The Queen's Birthday.

We learn that a committee has been formed for the due celebration of the 24th May, the anniversary of the birth of our beloved Queen; and we have every reason to believe that the celebration will be conducted upon a more systematic and extended scale than hitherto. We hope to be able to publish full particulars in our next issue, as it is desirable that the public should be informed with respect to the proposed programme as early as possible, so that those residing at a distance may have timely notice.

Municipal Election.

An election was held at the Court House on Thursday, for the purpose of filling the vacancies created in Wards 4 and 6 by the resignation of Mr. Smith and Mr. Major. The Hon. Mr. Brew, Returning Officer, commenced the proceedings at 12 o'clock precisely, by inviting those present to nominate their candidates. Mr. S. T. Tilley nominated Mr. L. F. Bonson, for Ward No. 4, and Mr. John Murray nominated Mr. James Cunningham, for Ward 6. In the absence of any other candidates the two above named were declared to be duly elected.

ANOTHER VICTORIA OFFICIAL "SKEDADDLED."—The Victoria papers notice the sudden departure from that town of William Culverwell, deputy-sheriff, official assignee and general agent, &c. We understand from private sources that Mr. C. leaves very large liabilities unprovided for, and it is believed that he has carried off considerable sums of money entrusted to him in the way of business. Our neighbors are really very unfortunate in the selection of their officials; but it is devoutly to be hoped that Culverwell is the last of the old scaly lot.

ARRIVAL OF THE "LILLOOET."—The str. Lillooet, Capt. Fleming, arrived on Thursday from her winter quarters on Harrison Lake. She struck a snag on her way down, rendering the removal of one of her planks necessary, which was accomplished to-day on the beach. The Lillooet looks well, and will be in fine trim for work.

LATER FROM VICTORIA.—The steamer Enterprise came in from Victoria last night, bringing 34 passengers and 110 tons of freight. Amongst the passengers were Hon. Mr. Walkem, and Mr. Wallace, editor of the Cariboo Express.

Journalistic Depravity.

We felt it our duty to explain on Thursday the seemingly strange circumstance of Monday's telegraphic dispatch appearing in both of the local journals as "special" to each. In yesterday's "N. P. Times" we are coarsely attacked, charged with publishing an untruth, and the public are asked to believe that we desire to appropriate the dispatches of our contemporary. The subjoined correspondence will show at whose door the untruth lies. To obtain a copy of our dispatch, as a matter of accommodation, so that it might be early in type for Wednesday's issue, instead of waiting to-copy from our columns on Tuesday, and immediately issue it in an extra, headed as his special dispatch, and then boldly give us the lie when we offered a true, and, under the circumstances, very mild explanation displays an amount of moral and professional depravity which is perfectly shocking:—

"BRITISH COLUMBIAN" OFFICE,

New Westminster, May 5th, 1865.

DEAR SIR,—Having observed in the "N. P. Times" of this morning a paragraph making a somewhat scurrilous allusion to the telegraphic dispatch received by me on Monday last I have to request your reply in explanation of the circumstances under which that dispatch was issued from the "N. P. Times" office in extra form.

I am, dear sir, respectfully yours,

JOHN ROBSON.

To J. M. Lyon, Esq., Agent Cal. State Tel. Co.

NEW WESTMINSTER, May 5th, 1865.

DEAR SIR,—Your note of to-day received. In compliance with your request, asking an explanation as to the circumstances under which the dispatch of Monday last was issued in extra form, from the "N. P. Times" office, I have to state that the dispatch belonged to you, a copy of which was furnished the "Times" office to enable them to put it in type for their paper of Wednesday morning.—Yours respectfully,

J. M. LYON.

To John Robson, Esq.

THE "CARIBOO EXPRESS."—We noticed a few weeks ago that it was in contemplation to start a paper in Cariboo under the above name. Mr. Wallace, the proprietor, and Mr. Lambert, the foreman of the establishment, arrived by the Enterprise last evening with the plant for the new paper, and will proceed to-day. We understand that Mr. Wallace stands perfectly untrammelled by any union or other clique or party, and proposes to establish a miner's journal, and treat all political questions from an independent British Columbia stand-point. Should such be the case the paper will be of great service to the interests of the colony, and we wish it every success.

FOR YALE.—The str. Hope left for Yale on Wednesday, carrying up a number of passengers and a full freight for Capt. Irving. The Reliance also left for the same place on the same day with a very heavy freight and a crowd of passengers.

FROM PUGET SOUND.—The sloop Letitia arrived from the Sound on Thursday, with a cargo of produce, which met with a ready market, at good prices. There is room for a brisk trade between here and the Sound.

FROM YALE.—The Reliance came in from Yale yesterday, bringing an express for Dietz & Nelson and \$5,000 in treasure. She brings no news of importance from the interior. Forwarding is going on briskly. Three loaded trains left Yale this week besides the usual number of teams.

REGINA VS. COPELAND.—The bail tendered on behalf of Copeland was accepted yesterday by the Court. The matter will come on for trial at the fall assizes here—not at Yale, as intimated in the N. P. Times.

FORWARDING.—It will be seen by a notice elsewhere that the extensive and enterprising firm of E. T. Dodge & Co. are prepared to do a cheap and rushing business this season. The rates at which they advertise to carry freight are certainly very low. They have 160 animals engaged in the carrying trade in addition to their steamers.

FROM VICTORIA.—The steamer Caledonia, Capt. Frain, came up from Victoria yesterday morning. She will remain over to place beacons at the Mouth of the Fraser.

ROAD SUPPLIES.—The steamer Caledonia went up to Langley yesterday with Government supplies for the party employed in constructing the road to Yale.

YALE ASSIZES.—The Court will leave to-day for Yale, where the assizes will be opened on Monday next.

THE STR. "ALEXANDRA" arrived last evening with a few passengers and a small freight.

NO NEWS.—Owing to a break in the line south of Seattle we did not receive our usual telegraphic dispatch yesterday.

PRESENTATION.—The Rev. Jas. Nimmo, of the Church of Scotland, who is about to leave the colony, was presented last evening, at the residence of Mr. J. G. McKay, on Rae street, with a handsome English gold watch, and a purse, the gift of the members of his congregation. Mr. Lang made the presentation, accompanying it with a few appropriate remarks, to which a feeling response was given by the reverend gentleman.—Colonist.

Royal Columbian Hospital.

NEW WESTMINSTER, May 2nd, 1865.

DEAR SIR.—Enclosed please find draft on Bank of British Columbia for \$42 63, being amount collected on board the steamer Hope on the excursion to Langley this day, Mr. E. T. Dodge refusing to accept any remuneration for the use of his steamer.—Respectfully yours,

L. HOYT,

Chief Engineer Fire Department.

C. Good Esq., President R. C. Hospital.

MAY 3rd, 1865.

DEAR SIR.—I duly received your note of yesterday's date forwarding a cheque for \$42 63, Hope in aid of the funds of the Hospital. As receipt of your letter, I have not been able to bring the matter before them, but I beg you to convey my thanks, on behalf of the Board, to those who raised so handsome a subscription in aid of the institution.

I remain, dear sir, yours faithfully,

L. HOYT, Esq.

CHARLES GOOD.

LITERATURE.

NON-SECTARIAN SYSTEM OF EDUCATION, VERSUS THE SO-CALLED NON-SECTARIAN SCHOOLS.—BY THE REV. L. FOUQUET, O. M. I.

[CONCLUDED.]

"IV. GODLESS SCHOOLS.—It is not without reason that people are afraid of godless schools for their children. The young ones are so impressionable that, once imbued with the religion of the school, they will not feel disposed to welcome them with proper reverence when at home or at church. Such children, when arrived at manhood with their passions, will be tempted to turn out altogether from the world the deity and his justice. * * * Such a teacher (i.e., a godless school teacher) will give them no better moral education than an Epicurean, an Atheist or Pantheist or a Sceptic appealing to the inclinations of children, noble or vile as they may be. His morality will be philosophical, sectarian according to the sect he draws it from; at all events it will be a very low standard."

"No God! no God! the simplest flower That on the wild is found, Shrinks, as it drinks the cup of dew, And trembles at the sound."

As there is in the human mind a natural activity independent of volition, so in the human soul (in several passages of this pamphlet mind and soul are so blended together that they are almost indistinguishable) there is a promptness—almost a necessity—to render a "godless school" an impossibility. "It is the infinite that we love," says Victor Cousin, "while we believe that we are loving finite things, and even while we are loving truth, beauty and virtue."

"V. COMMON RELIGION—COMMON CHRISTIANITY.—It is surprising for a mixed community such as ours, less dissensions and more united, to have no religious matters. Still there are signs, easily discovered by any observer, which show plainly that most of the people are zealously attached to their own system of doctrine, and very much more to their peculiar creeds and beliefs. I doubt if the will of the State could reconcile even the various Protestant persuasions—Anglican, Presbyterian, Wesleyan, &c."

Our author evidently thinks a complete fusion of these bodies on this question of education will not take place, like the iron and clay in the toes of Nebuchadnezzar's image—iron may cleave but they will not incorporate. VI. MORAL TRAINING ON CHILDREN. * * * To develop in children only the moral feelings and susceptibilities will make them no better than fanatics. When no means to divert them from it; reckless of consequences and regardless of reason and authority, they would sink under moral excitement and become deranged; a result that is often developed in some of its milder features," says Mayhew, "among the Reformers of the day."

Fanaticism has in all ages sprung more from what is called "religious" than "moral" causes. According to Mr. Piquet morality itself is sectarian, and of course has its heresies. Where is heresy not to be found? A learned doctor once said he would undertake to discover "heresies" in the "Lord's Prayer." We Catholics do not believe in Lord Palmerston's dogma that all children are born good. We scarcely think the "juvenile" was speaking reasonably when he said this. We have some recollection of reading the speech, and, rightly or wrongly, the impression left on our mind was something of the serio-comic kind. The Premier on "Original Sin"—the very idea seems amusing!

But the gist of this chapter is in the following: "It is evident, then, that the moral training of Catholic children cannot be separated from their religious belief and dogmas; upon whatever other principle you may base moral education, it must be looked upon by them as sectarian and dangerous, and full of evil. If it is true that the best course of Education will sometimes fail to obtain its end, it would be extremely folly to expect a good result from a dangerous moral training of the common schools, be it based upon mere nature or mere deity, or any other sectarian principle, have no right to impose their views upon others."

VII. THE BIBLE.—It is well known that, for instance, in England they have common or universal law, and a state or written law. In a like manner, we Catholics believe that in the kingdom of Christ there are DIVINE TRADITIONS or unwritten Word of God, and HOLY SCRIPTURE or WRITTEN Word of God, of which the Church has been appointed the guardian and expounder by Jesus Christ himself, who promised her safeguarding and expounding the precious deposit of revelation. Although she is divinely commissioned and appointed to transmit to all generations the Word of God, to explain it, and to decide upon it in all doubtful cases, she is not above it, no more than a judge, who explains and decides upon points of human law, is above the law. Catholics claim for their Church what every member of the Reformation challenges to himself, as often as he pretends to decide any doubt of his own, or his neighbor, by interpreting the Scripture. &c."

The only remark we here care to make is, that the chief cause of the failure of all the Education Bills which have been introduced into the British Parliament from time to time, during the last dozen years, has been the Bible—its introduction, non-introduction, &c. We sincerely hope our education legislators will see their way to a speedier solution of the problem.

VIII. CATHOLIC EDUCATION AND SCHOOLS.—The duty of educating the young ones for this temporary world of short life, and of bringing them up to a higher or lower pitch of moral excellence or physical ability, varies with man's circumstances or wealth, position in society, natural tastes and future prospects. The duties which they are called upon to fulfil in this world are, no less than their respective abilities, extremely varied; hence Education, after it has reached the summit of common basis, must necessarily branch out into almost infinite directions; and that beautiful variety of accomplishments, of knowledge, and power, which enriches the social structure, is thus produced. But, apart from this multiplied and beautiful diversity of callings which, for the general good of society, sends out every man to tread a path of his own, there is a call-

ling common to all; there is a central point where all lines are to converge. The catechism tells us that we are created to know God, and to love him, and to serve him here on earth, and hereafter to see and enjoy him forever in heaven. This is the end; the resting shore where we all must at last land. Education must fit and prepare us for it. Now, man has an understanding and a free will, a mind and a heart, both of which are called to the possession of God, the former by knowledge, the latter by love; and this possession of God, which, inchoate in this life, is to receive its perfection in the next, is the primary as well as the ultimate end of mental Education. It is, too, the most exalted and faithful associate of the soul in serving God—for "I shall be clothed again with my skin, and in my flesh I shall see God." Any training system which contained no provision for this exalted end, would be not only imperfect but false and dangerous, for it will ignore the brighter as well as the only enduring portion of man's destiny; the sublime and ultimate destiny of his soul and body."

This beautiful writing. Indeed, the whole chapter is well written. M. Fouquet vindicates his Church of the charge of not being friendly to the education of the people, and quotes authorities to prove that in medieval and modern times she has ever been its patroness.

We shall now close this rather lengthy notice of his "Catechism" pamphlet by giving an extract from Father Fouquet's pamphlet by giving an extract from

"The Catholics of British Columbia ask something similar to what has been done in most European and Christian countries in which there is a mixed population: whatever system of Education is adopted for the majority of the people, the minority is permitted to have schools of their own, supported and countenanced by the Government. Hence, wherever the Catholics of British Columbia will be in a position to have schools of their own, they expect to receive from the Government the same support which may be granted to any other school, be it godless, or common mixed, or Anglican, or Presbyterian, or Wesleyan, for any one of them is sectarian or denominational, and contrary to our conscience."

"* * * To sum up: every sort of so-called non-sectarian school is, in regard to Catholics, more or less sectarian, full of evils, and opposed to their right of uniting into one the religious and secular education of their children. Consequently, as long as any portion of the public funds in British Columbia would be devoted to the education of Catholics, they will ask from the Government in proportion to their number and the taxes they pay, assistance for schools of their own. Any system whatever which the Government may adopt, we trust in its justice and fairness for the securing of our claims, we have no objection to see their schools subjected, as to the equitable inspection and just rules of a Government system in regard to secular matters."

In the form of a "postscript" there is a letter from the Governor to William Clark, Esq., acknowledging the receipt of certain resolutions passed at a public meeting, the concluding paragraph of which is: "and the gentlemen who attended the meeting may be sure that any regulations they may draw up shall have for their basis the general principles they advocate, together with the utmost deference for the religious convictions of every denomination of Christians." This must surely be a satisfactory assurance to our Catholics. The age of their disabilities is passed. Civil equal duties; equal powers, equal responsibilities. And if, in seeking the consummation we all so much desire—the speedy and amicable settlement of this Education question—all parties bear in mind the golden rule: "Do unto others as you would that they should do unto you," we shall leave to our posterity a legacy, the best we can leave them—the legacy of a good Education."

PUBLIC NOTICE.

COTTONWOOD & RICHFIELD
WAGGON ROAD.

SEALED TENDERS will be received at the Lands
& Works Office, New Westminster, up to noon of
WEDNESDAY, the 31st day of MAY, 1865, for the
construction of a Waggon Road connecting the COT-
TONWOOD RIVER BRIDGE with the road now made
to a point about 2 miles from the town of Van Winkle.

The road to follow the present blazed line, as far as
Davis' Creek, and thence along the valley of Lightning
Creek to the point above named. The road will be di-
vided into three sections.

Section I.—Extending from Cottonwood Bridge to a
point on Lightning Creek where the blazed line of road
intersects Capt. Grant's Trail.

Section II.—Extending from the last named points
to Davis' Creek.

Section III.—Extending from Davis' Creek to the
termination of the road (now constructed from Rich-
field), in the vicinity of the 47-mile post on Captain
Grant's Trail.

Parties tendering for more than one section of this
work must send in a separate tender for each section.

With each tender must be enclosed a Bond of the
person tendering, and of two responsible Sureties with
him, for the payment to the Government of the sum of
£1,000, conditional on the non-fulfilment by him of the
terms of his tender, if accepted.

The lowest or any tender not necessarily accepted.

Further particulars can be had by applying at the
Lands & Works Office, New Westminster, or at the Ma-
gistrate's Office, Quesenow, where the Specifications
and form of Bond can be seen.

Tenders to be addressed to the Chief Commissioner
of Lands & Works, and superscribed "Tender for Cot-
tonwood and Richfield Road."

ALL CURES MADE EASY!!

HOLLOWAY'S OINTMENT.

Bad Legs, Ulcerous Sores, Bad
Breasts and Old Wounds.

No description of wound, sore, or ulcer can resist the
healing properties of this excellent Ointment. The
worst cases readily assume a healthy appearance when
ever this medicament is applied; sound flesh springs
up from the bottom of the wound, inflammation of the
surrounding skin is arrested, and a complete and per-
manent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflam-
mation.

These distressing and weakening diseases may with
certainty be cured by the sufferer themselves, if they
will use Holloway's Ointment, and closely attend to the
printed instructions. It should be well rubbed upon
the neighbouring parts, when all obnoxious matter will
be removed. A poultice of bread and water may some-
times be applied at bed time with advantage; and most
scrupulous cleanliness must be observed. If those who
read this paragraph will bring it under the notice of
such of their acquaintances whom it may concern, they
will render a service that will never be forgotten, as a
cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and
subduing pain in these complaints in the same degree
as Holloway's cooling Ointment and purifying Pills.
When used simultaneously they drive all inflammation
and depravities from the system, subdue and remove
all enlargement of the joints, and leave the sinews and
muscles lax and uncontracted. A cure may always be
effected, even under the worst circumstances, if the use
of these medicines be persevered in.

Eruptions, Scald Head, Ringworm &
other Skin Diseases.

After fomentation with warm water, utmost relief and
speedy cure can be readily obtained in all complaints
affecting the skin and joints, by the simultaneous use of
the Ointment and Pills. But it must be remembered
that nearly all skin diseases indicate the depravity of
the blood, and derangement of the liver and stomach,
consequently, in many cases, time is required to purify
the blood, which will be effected by a judicious use of
the Pills. The general health will be readily improved,
although the eruption may be driven out more freely
than before, and which should not be promoted; per-
severance is necessary.

Sore Throats, Diphtheria, Quinsy,
Mumps & all other Derangements
of the Throat.

On the appearance of any of these maladies the Ointment
should be well rubbed at least three times a day
upon the neck and upper part of the chest, so as to
penetrate to the glands, as salt is forced into meat.
This course will at once remove inflammation and ulcer-
ation. The worst cases will yield to this treatment by
following the printed directions.

Serofula or King's Evil and Swelling
of the Glands.

This class of cases may be cured by Holloway's puri-
fying Pills and Ointment, as their double action of puri-
fying the blood and strengthening the system render them
more suitable than any other remedy for all com-
plaints of a serofulous nature. As the blood is impure,
the liver, stomach and bowels, being much deranged,
require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following
cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and	Sore Nipples.
Burns.	Stiff Joints.	Sore-throats.
Bunions.	Elephantiasis.	Skin-diseases.
Bite of Mosquitoes	Fistulas.	Scurvy.
and Sand-Flies.	Gout.	Sore-heads.
Coccyx.	Glandular Swel-	Tumors.
Chicago-foot.	lugs.	Ulcers.
Corns (soft).	Lumbago.	Wounds.
Cancers.	Piles.	Yaws.
Chilblains.	Rheumatism.	

Sold at the establishment of PROFESSOR HOLLOWAY
244, Strand, (near Temple Bar) London; and by all re-
spectable Druggists and Dealers in Medicines through-
out the civilised world, at the following prices:—1s.
